

SPRING CLOTHING—M. GUTMAN & CO.

May strike you as a strong expression, but nothing less would half tell the story of our SPRING SUITS. We fit everybody, and fit so perfectly in every instance that there'll be more well dressed men in Wheeling this year than ever before. These suits are made to Fit and Wear, and what's more are Fit to Wear, and will stay Fit until they're worn out. Of course any garment will wear out, but these suits will certainly outwear anything you can buy at other stores this season. The handsomest and largest line of BOYS' and CHILDREN'S SUITS in the city. They can't be beat. Call and be convinced.

THE TRACKS COME UP.

The Circuit Court Refuses to Dissolve the Injunction,

ORDERS THE STREET CAR COMPANY

To Substitute for its Double Track on Jacob Street South of Forty-third a Single Track in the Middle of the Street, to which it has a Vested Right—Other Business in Court Yesterday.

Yesterday was a pretty busy day in the circuit courts and a number of orders were issued by Judge Paull.

In the case of the Wheeling Railway Company vs. the city and the board of public works, concerning the double track on Jacob street, an order was entered reciting the history of the case, and continuing:

It appearing that the plaintiff has a right to maintain and use a single track railway upon Jacob street between Forty-third and Forty-fourth streets in the city of Wheeling, which right became and is a vested right, with which the city of Wheeling should not interfere in the opinion of the court, the court doth refuse to dissolve the injunction heretofore awarded, but doth continue said injunction till the further order of the court. But it appearing to the court that the plaintiff took up the single track so first laid on Jacob street and replaced it with a double track and that the council of the city of Wheeling passed an order requiring the railway company to take up the two tracks and lay one in the middle of the street, and the company having been duly notified so to do, and the court being of the opinion that upon the principle that "he who seeks equity must do equity," the company should have complied with the order of council, it is ordered and decreed that the company shall, within thirty days, comply with the order of council.

OTHER COURT BUSINESS.

In Judge Paull's court yesterday it was ordered that six jurors be drawn and summoned.

In the case of Crawford McCracken vs. the city of Wheeling a verdict was rendered for the plaintiff for \$100. A new trial was moved for.

The case of J. W. Mathison, assignee, vs. M. A. Walton, was put on trial to a jury.

In the case of the city vs. W. P. Zane, appealed from the police court, a verdict of guilty was rendered and a motion for a new trial entered.

In the case of George J. Mathison, assignee, vs. M. A. Walton, a verdict was found for the plaintiff for \$52.68, with interest. A motion for a new trial was entered.

Schwartz, Mansbach & Co., vs. George Magers; judgment for \$370.23.

Louis C. Meyer, guardian, vs. Cecil Meyer and others; bond for \$1,000 given in open court, with Henry Knoke as security.

In Judge Campbell's court the case of J. J. Hammond vs. Archie Woods, which grows out of a dispute about a horse, occupied the day.

PURE WATER.

Its Importance in Connection With the Threatened Epidemic of Cholera.

To the Editor of the Intelligencer.

Sir:—The warnings which come from Europe of the importance of the water supply in connection with cholera epidemics is so positive and unmistakable that it should be taken as a rule for action by all intelligently administered American communities. It is not, of course, impossible that cholera may be spread and even assume epidemic proportions by other means, but the testimony is unmistakable that the most usual method of its transmission in wholesale degree is by the distribution of a water supply bearing the germs of the disease.

Hamburg affords the latest demonstration of this principle. That city drew its water supply from a polluted source and the deaths from cholera reached 30.8 per 1,000 of its population.

In India it is notorious that the cholera is spread by the use of water from toul reservoirs by the natives; while the English, who never use water without boiling or purifying it, are practically exempt from the disease.

The same lesson has been repeated in a variety of forms, hence the only precaution is, to boil or filter all the water used for household purposes, especially that used for drinking. Ewing Bros., 1215 Market street, Wheeling, were the first to introduce in this locality the plain, simple Natural Stone filter. Any child can understand it. They have by efforts of their own gradually reduced the price of this simple and practical Natural Stone filter from the price of \$11.75 ten years ago to the price of today, \$3.50. Certainly any family can now have a good Natural Stone filter. The price has been brought down within the reach of all, and Ewing Bros. should have the credit for having done so. An original case of cholera may occur in this community. All should take the necessary precautions to prevent the spread of the disease, and the good housewife will see that the disease will not enter her household if such precautions will prevent it. Boil all the water and filter it, when a cheap filter is within the reach of all.

Staller not in It.

The second game between Osce Staller, champion pool player of this city, and W. H. Clearwater, ex-champion of Ohio, at the Grand Opera House billiard rooms, was a one-sided affair, Clearwater beating Wheeling's pet without apparent effort, the score being 150 to 34. The Ohio man made seventy-five balls in as many shots, and only missed five available shots in the whole game. He gave an excellent exhibition of fancy shots after the contest.

In the Hands of the Law.

Last evening Officer Herbert locked up one Malacchi Golden, as a plain drunk. His name was the provocation for a number of villainous puns about the office. Thomas Maloy was arrested by Carney for disorderly conduct, and as he resisted and was very abusive, two charges were lodged against him.

The Evolution

Of medicinal agents is gradually relegating the old-time herbs, pills, draughts and vegetable extracts to the rear and bringing into general use the pleasant and effective liquid laxative, Syrup of Figs. To get the true remedy see that it is manufactured by the California Fig Syrup Co. only. For sale by all leading druggists.

MARRIED IN WASHINGTON.

Mr. Watkins, of this City, Weds a Washington City Belle.

The Washington, D. C., Star has the following:

The marriage last night at the Ninth Street Christian church of Mr. George Watkins, of Wheeling, W. Va., to Miss Leona Hutchinson, daughter of Mrs. W. J. Hutchinson, of 515 Second street northeast, made the opportunity for a large assemblage of church people and friends of the happy pair. The seats were specially arranged for the occasion, the altar placed in the western portion of the room and beautifully decorated with flowers. While Miss Maud McNaught executed the wedding march the bridal party, led by the ushers, Messrs. C. B. Titus, Frank Carpenter, Daniel Beach and Edward Hutchinson, came to the presence of the officiating minister, Rev. E. B. Bagby. His remarks upon the presentation of the ring were out of the usual form, unique and impressive.

At the conclusion of the ceremony the newly married couple were accompanied to the train by a large party of friends. Mr. and Mrs. Watkins have a furnished house awaiting them at 3424 Chapline street, Wheeling, where they at once begin their married life. The bridegroom met with a very serious accident in the loss of the index finger of his left hand last Saturday and suffered a good deal therefrom. The bride has been one of the most active workers in the church above named, and leaves a host of friends. She was the recipient of many beautiful presents.

It Was a Surprise.

Friends of the contracting parties were surprised yesterday afternoon when it was learned that Harry F. Menkemiller, the well known South Side shoe dealer, and Miss Agnes Rufferty, of South Eoff street, had gone to Pittsburgh in the morning to be married. Though it was generally supposed that the couple contemplated matrimony, it was not thought they would take their acquaintances so completely by surprise. They will be absent several days before returning to this city.

Ohio Children Elope.

Barnesville, Ohio, had a child elopement case that was cut short by friends of the fourteen-year-old girl. Alva Abshire, a wayward youth of sixteen, who has cut quite a figure for a boy of that age, eloped with Ethel Hunt, a girl but fourteen, and intended to go to Kentucky to get married. They were intercepted at Zanesville by the police, who had been advised, and W. E. Osburn, an uncle of the girl, went to Zanesville and brought the kids back home. The maternal slipper brought a change over the mind of the young girl, but the boy is still looking for other worlds to conquer.

A good appetite can be bought, like anything else. And good digestion after it, too. Both of them come with Doctor Pierce's Golden Medical Discovery. That starts the torpid liver into healthy action, purifies and enriches the blood, cleanses and repairs the system, returns strength and vigor, and builds up flesh and bone. For all diseases that come from a disordered liver or impure blood, Dyspepsia, Biliousness, Scrofulous, Skin and Scalp Diseases—even Consumption (or Lung-scrofula) in its earlier stages, the "Discovery" is the only remedy so sure and certain that it can be guaranteed. If it doesn't benefit or cure, in every case, you have your money back.

On those terms, it's the cheapest blood-purifier sold, no matter how many hundred doses are offered for a dollar (or less)—for with this, you pay only for the good you get. Can you ask for better proof of its superiority over all other blood-purifiers?
